DATA PROTECTION

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

Breaches of Rules

If, at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations

PSA retains the right to investigate in any way all complaints/suspicious of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

If another party is submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to these Conditions of Entry (Entry Rules) **and will be subject to sanction for any violations** to these Conditions of Entry and PSA's Statement of Ethics that may result.

NOTICE: When an entrant fills in the Entry Form to submit an entry the entrant will see a feature to affirm he or she has read these Conditions of Entry when he or she fills out the entry form. If the entrant does not so affirm the entry will not be submitted

PSA Statement on Subject Matter

There is one hard and fast rule, whose spirit must be observed at all times and **applies to all sections** offered in PSA recognised exhibitions.

The welfare of the subject is more important than the photograph.

This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any PSA exhibitions.

There is also a PSA policy on the use of aerial photography - aircraft, helicopters and drones. This policy can be found at <https://psa-photo.org/index.php?psa-policies#drone>.

The purpose of this policy is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment. Entry in this exhibition requires exhibitors to agree to this and other PSA policies

The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the Exhibition Organizers - do not comply are likely to be disqualified so the entrant may be aware of the problem when considering entry into other PSA recognized exhibitions.

DEFINITION:

PSA Monochrome Definition

An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A greyscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.

Greyscale Monochrome images may be entered for Nature, Photojournalism and Photo Travel but **toned images are not permitted for these divisions.**

Monochrome images may not be entered in PID Color sections.

PSA Nature Definition

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality

Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.

Scientific bands, scientific tags or radio collars on wild animals are permissible.

Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted.

Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning.

Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed.

Stitched images are not permitted.

Color images can be converted to greyscale monochrome.

Infrared images, either direct-captures or derivations, are not allowed.

Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Attention is drawn to the PSA Statement on Subject Matter which applies to **all** sections

PSA Photo Travel Definition

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

Attention is drawn to the PSA Statement on Subject Matter which applies to **all** sections
